# The future is bright!

---

These are exciting times! During the past year, we have focused part of our product development on bringing LEDs to the Daylight range. And we didn't take just any LEDs, we searched for the best quality to maintain our legendary colour matching and relaxing light. Our priority was to recreate our comfortable lighting with LED technology and we believe we succeeded with the launch of our new Foldi™ LED lamp!

## FOLDI™, THE BEGINNING OF A NEW TREND

The Foldi™ LED battery lamp is one of the most innovative lamps we ever launched. With its slim design and smooth lines, this lamp truly is the finest portable designer lamp. Foldi™ will give up to 8 hours of bright white light on batteries and unlimited light once USB connected to your laptop, making it the ideal travel, office and hobby lamp.

## THE RIGHT LAMP FOR THE RIGHT CUSTOMER

All our lamps in this catalogue have been developed and designed with your customer in mind. They come with built-in flexibility, durability and mobility, so you can rely on Daylight™ lamps to do the job, whenever and wherever you need them. Daylight™ lamps combine craftsmanship, performance and quality with unbeatable value for the money.

## DESIGNED TO LAST

The unique Daylight™ 'Double Inspection System' ensures that all our lamps are individually inspected and tested at least twice before they reach your customers, making it the best choice for their specific lighting needs for factories, laboratories, beauty salons, offices and other professional applications.

## 6500°K DAYLIGHT TECHNOLOGY™

All Daylight™ bulbs, tubes and LEDs are Full Spectrum and reduce eye-strain so they provide the most comfortable light for working and reading. The light offers true colour matching and helps artists and crafters mix and match colours. Daylight™ lights are simply the best source of light at any time of the day. We truly help you see better!

## NATURALIGHT™, MORE CHOICE FOR YOUR CUSTOMERS

Naturalight™ targets a growing segment with lower cost natural lighting alternatives. Naturalight™ is our affordable mid-range line with magnifying and task lamps, all with Full Spectrum Naturalight™ light, ideal for hobbies, reading and all kinds of inspection work.

## INNOVATIONS IN TASK LIGHTING

The Daylight™ design team never stops creating and we are always looking at new innovative product ideas or ways to improve our products. So let us know how Daylight™ can help you generate more sales with your lighting category. Go to our website [www.daylightcompany.com](http://www.daylightcompany.com) for more details or contact your Daylight™ sales representative.

**Equivalent  
Brightness  
Ratings**

Light comparison between energy saving and incandescent bulbs.

**Lasting  
longer**

Energy saving bulbs last up to 10 times longer than incandescent bulbs.

**-80%**

**Saving you  
money**

Energy saving bulbs use up to 80% less energy than incandescent bulbs.

One of the most important features that makes our lamps truly unique is our Daylight™ bulbs. Nothing shines up your work like a Daylight™ light! Daylight™ bulbs guarantee perfect colour matching, reduce eye strain and glare, help to see details and small print more easily and are low heat and energy saving. You will read or work for hours and your eyes will still feel fresh! Our lamps truly help you see better.

## The lamp that *grows* with your project!

Whether you are working on small or **large paintings**, Daylight's exclusive new Studio lamp will light up all your projects perfectly. This stylish studio lamp comes with a **2.2m height-adjustable tripod**. Its 100w clip-on lamp (D/E31175) provides optimal colour matching and all-day comfort for your eyes. And for your larger projects you can quickly **add up to 3 more clip-on lamps** (available separately, D/E31275) with the unique Clamp-lock™ system, to provide **up to 400w of ideal light!**
